FALL OUTLOOK

We are entering an exciting time for agriculture and the farming industry. Corn and soybean harvest have started and we are beginning to see the yield data. At Phillips Seed we are always looking forward to compiling the information so we can get the best possible variety and hybrid on your farm.

At the same time, we are at the start of wheat drilling season. If you are still looking for variety options don't hesitate to reach out to your local Phillips Seed Dealer, or get in touch with one of our offices directly. We have a great selection of high yielding wheat varieties available for you.

Currently we have a good supply of the following:

AGSECO: AG Golden, AG Radical

AgriPro: AP18AX, AP Bigfoot, Bob Dole, SY Wolverine

KWA: KS Mako, KS Providence

WestBred: WB4401, WB4422, WB4523, WB4699,

WB-Grainfield

Additionally, we have a strong supply of **Elbon Cereal Rye** and **Fridge Beardless Triticale** available.

Pre-pay Reminder:

Please be sure to contact your rep or our office for the latest pre-pay details!

Mark your calendars-

Due to overwhelmingly positive feedback, we are hosting another Whitetail Management Summit on March 1, 2025. This event will be held at the Oswego Community Center in Oswego, KS. We look forward to seeing you there.

DEALER SPOTLIGHT: CANNON SEED

Cannon Seed and E5 LLC, located in Fort Scott, KS, has proudly been a Phillips Seed dealer since 2022. Cannon Seed started in 2018 and E5 LLC started in 2014 with their service area including southeast Kansas and southwest Missouri. Chase Cannon, along with Mike Emerson, can assist you with any Phillips Seed products.

This year, they are running a hard red winter wheat test plot, which includes our new Phillips Seed wheat variety, PS Elevate. We encourage you to stop by the plot and see it for yourself. In addition to the test plot, Cannon Seed and E5 LLC have access to exclusive Phillips Seed products, including our Phillips Seed Ultra Graze—a cover crop blend that provides grazing from spring to fall. If you have any questions about forages, wheat, alfalfa, or cover crops, be sure to reach out to them. Service is their goal and they will deliver 24/7!

Thank you for your partnership, Cannon Seed & E5 LLC!

Yield Results Update

We've started receiving plot results for corn from southern Kansas. As the corn harvest progresses north and soybean harvest begins, feel free to reach out to your Phillips Seed Representative. We'd be happy to share the latest yield information to help you select the best variety for your acres.

Also, keep an eye out for our new **PS Elevate** wheat variety, which has been placed in numerous KSU and KSU Extension plots from Hays to Fort Scott.

We encourage you to share your crop photos or yield results with us! Your contributions might be featured in our product guide, on our website, or across our social media channels. Send your photos and yield information to: tbarbieri@phillipsseed.com

Don't hesitate to reach out with your questions. We thank YOU for your business!
